M. PARTHASARATHY,
6740 *Asst. Accountant-General.*

Circular dated 21st September 1956.

No. P.V. 454—1956-57-Genl. A reference is invited to the instructions issued in Government Order No. Fl. (B) 3935-4034—Pen. 3-55-1, dated 30th June 1955 for the speedy disposal of pension cases and proper maintenance of service books of Government servants. It was suggested, among other things, that in the case of persons still in

service a programme of examination of their service records should be undertaken by all the heads of offices, priority being given in the descending order of age, with a view to determining the extent of temporary or officiating service counting for pension and making necessary entries in the service registers. But, from the service registers received in this office along with the pension papers of several departments it is seen that the necessary particulars regarding the temporary or officiating service rendered by the retired Government servants and whether such service counts for pension under the relevant rules or not are still generally wanting and consequently finalisation of the pension cases is unduly delayed. This omission in making the necessary entries appears to be partly due to the fact that the present form of the service register (Form No. I) prescribed under the Mysore Services Regulations does not provide for columns for making entries to indicate whether temporary or officiating service rendered prior to confirmation counts for pension under Articles 226 or 227, Mysore Services Regulations. Therefore, pending supply of revised form of the service register, all the heads of offices and departments are requested to see that additional columns as indicated in the Annexure to this circular are opened in manuscript in the Service Registers of all the non-gazetted Government servants in service at present and of those who have retired but whose pension records have not yet been sent to this office for verification, and necessary entries are made therein under due attestation. As action suggested above would go a long way in minimising the delay in the disposal of the pension cases, all the inspecting officers are also requested to ensure during their inspection of their subordinate offices that the instructions issued in this circular are complied with.

ANNEXURE.

Column 12 (a)	Column 14 (a)	Column 14 (b)
If the post is temporary, whether it was eventually made permanent and whether the service in it counts under Article 226, Mysore Services Regulations, quoting the authority and the date from which the post was made permanent if it was so made.	Nature of the vacancy i.e., whether substantive provisionally permanent, temporary, officiating on probation.	If officiating or on probation whether the service counts for pension under Article 227 and 229, Mysore Services Regulations. Full particulars as to how the vacancy arose and what became of the previous permanent incumbent should also be recorded.

Subject:—Summary of important points brought out in India Government Commercial Representatives' Reports, etc.

Saudi Arabia.

Saudi Arabia offers a good market for cotton piecegoods, tea, tobacco, spices, silk manufactures and cotton manufactures. The manufacturers of these goods in India are advised to advertise their goods through Arabic press of Saudi Arabia. Advertising in the local press would certainly be costly, but the returns are likely to compensate their expenditure involved. For further particulars the Legation of India, Jedda, may be contacted direct.

Africa.

Information received through the Indian Government Trade Commissioner at Mombasa indicating that the Phasing Scheme which has been in operation at Mombasa and other East African ports since the year 1952 has been withdrawn with effect from 24th July, 1956. Imports of cargoes into Mombasa port and other East African ports which were hitherto restricted, are now free from all such restrictions. Any ship may call at the port *with any tonnage* with any cargo from any area.

East Africa presents a very good market for ready made garments also. Shirts, Pyjamas suits of rayon or cotton, rayon gaberdine pants, and cotton drill shorts and pants are most likely to go well in the coastal areas of East Africa. Interested exporters may contact India Government Trade Commissioner at Mombasa.

On the 6th June, 1956, the Foreign Ministry of the Republic of Indonesia announced the lifting of the embargo on the export of natural rubber to the People's Republic of China and North Korea. This announcement followed the announcement from Singapore and Malaya.

It is expected that cheap quality small holders rubber will find a better market as a result of the lifting of the embargo As export earnings from rubber from an important part of the total foreign exchange earnings by Indonesia, the lifting of the embargo is expected to ease a little the difficult balance of payments position of Indonesia.

Indonesia.

The Minister of Justice has announced that in anticipation of the Patents Act, provisional applications for patents may be lodged with the Ministry of Justice, 17, Djl. Segara, Djakarta, as from 1st November, 1953.

The lodging of such applications for letters patents will in due course, when the Patents Act has been promulgated, give the following preferential rights :

(a) Preferential right based on article 4 A I of the Treaty of Paris, as last amended in London on 2nd June 1934, in the case of a similar application for letters patent in any of the countries to which the treaty applies.

(b) Other preferential rights over applications lodged at a later date.

Publications will take place only after the Patents Act comes into operation.

Applications for patents must meet the following requirements:—

They must be in the Indonesian language, or in the language of the applicant together with a (certified) Indonesian translation. The application containing the applicant's name, address and nationality must be signed by the applicant himself. If an application is made by proxy, the same conditions apply (*i.e.*, name, address and nationality of proxy must be given).

Applications must be accompanied by:

(a) a description of the invention for which letters patent are requested, in triplicate ;
(b) if necessary, one or more drawings, each in duplicate;
(c) a power of attorney if the application is made by a proxy ;
(d) the appointment of proxy domiciled in Indonesia ;
(e) the prescribed fees ;
(f) statement whether letters patent have already been applied for in other countries (in respect of the application in question), and if so whether patents have been granted.

The description of the invention must include:

(a) name of the invention and a brief explanation what the invention is for ;
(b) a brief explanation of the nature (" djenis ") and purposes (" tudjuan ") of the invention ;
(c) a concise explanation which must be sufficiently comprehensible to an expert about the uses of the invention (" tjara dipergunakannja ") in so far as necessary illustrated with one or more drawings;
(d) one or more reasons to show that the invention is in fact a new one, and really does differ from what is already known (existing patents).

Guiding principles governing the Trade Marks Registration.

There are two ways for the registration of trade marks :

1 *Application for advance inspection.*—

Application for advance inspection must be accompanied by :

(a) the concerned label in duplicate; if the label contains Chinese, Japanese or Indian alphabets or foreign languages which are not well-known explanations concerning its meaning should be given in Indonesian.

(b) Inspection fee of Rp. 20 for each mark.

2 *Application for registration.*—

For this purpose (called " direct registration "), the applicant must file:

(a) application letter in duplicate, in conformity with the pattern attached thereto (sealed paper is not required, but a rather thick and white paper should be used ; carbon copy will not do);
(b) a stereotype block (from coloured labels : a lattice block), which contains all drawings and texts not exceeding the following measurements ; length 10 cm., width 10 cm., thickness 2·4 cm. (including the wooden part);
(c) 12 loose labels (coloured or not-coloured), which are similar to the pattern attached to the application.
(d) registration fee of Rps. 75 for each mark.

Furthermore, it should be understood, that registration is only valid for the mark as indicated in the label attached to the application, and protects goods which are described under " Kind of goods ". This implies, that a fresh application must be made, when a trade mark will be used, which differs from the pattern registered previously. It should be mentioned that the afore-mentioned fee of Rps. 20. for advance inspection, or Rps. 75 for direct

registration will not be refunded when the mark is refused (rejected).

ADEN.

Market in Aden.

(a) Gas mantles.

Artificial silk mantles for use with petromax lanterns are imported into Aden mainly from U. K. and Germany. The popular brands are 'Iran Clad' from U.K. and 'Alien Shams' from Germany. The wholesale selling prices are East African Shillings 55'00 to EAS. 60'00 per gross (EAS 1'5= Re. 1). Mantles imported from India have been found satisfactory as they are not so lasting. If quality and price can be competitive there is a market for gas mantles in Aden.

(b) Motor car batteries.

There are large number of buses and taxis, which are the only means of transport in Aden. There is a large demand there, for motor car batteries. Popular batteries are 'Excide' and 'Parks'. 6-Volt batteries are sold for EAS 95 to EAS 115 and 12-Volt batteries for EAS 110—130 (EAS 1'5=Re. 1). If India can supply batteries of comparable quality at competitive prices there is a market for Indian batteries at Aden.

(c) Candles.

These are mostly imported into Aden from South Africa. A popular brand is 'Lion' which comes packed in 30 packets to a carton, each packet containing 8 candles of 12 oz. weight. The wholesale selling price is about Rs. 18 per carton.

Those interested in the export to Aden of gas mantles, motor car batteries and candles may contact India Government Commissioner, Aden for further information in this respect.
